ADMINISTRATIVE MOTION TO SEAL

Pursuant to Civil Local Rules 7-11 and 79-5, and to the Protective Order entered in this case dated December 28, 2023, ECF No. 176 (the “Protective Order”), Defendants Uber Technologies, Inc., Rasier, LLC, and Rasier-CA, LLC (collectively “Uber”) respectfully submit this Administrative Motion to Seal Documents Filed in Support of Uber’s Motion for Protective Order, dated February 28, 2025. Uber respectfully requests that the Court seal the following documents filed in support of that motion:

I. BACKGROUND AND REQUESTED SEALING

1 **II. LEGAL STANDARD**

2 Documents that do not relate directly to the merits of a case are properly sealed when a
 3 moving party makes “a ‘particularized showing’ under the ‘good cause’ standard of Rule 26(c)”
 4 of the Federal Rules of Civil Procedure. *Kamakana v. City & Cnty. of Honolulu*, 447 F.3d 1172,
 5 1180 (9th Cir. 2006) (internal quotations omitted); *Ctr. for Auto Safety v. Chrysler Group, LLC*,
 6 809 F.3d 1092, 1101–02 (9th Cir. 2016). Federal Rule of Civil Procedure 26(c) states that good
 7 cause may exist when issuing an order to seal is necessary to “protect a party from annoyance,
 8 embarrassment, oppression, or undue burden or expense.” Fed. R. Civ. P. 26(c).

9 The documents at issue relate to a discovery motion for a protective order, not a dispositive
 10 motion. Documents “attached to a discovery motion” are “unrelated to the merits of a case,” *Ctr.*
 11 *for Auto Safety*, 809 F.3d at 1097, and “one step further removed in public concern from the trial
 12 process than the discovery materials themselves.” *U.S. v. Selugh*, 896 F.3d 1007, 1015 (9th Cir.
 13 2018). Accordingly, “‘materials attached to a discovery motion unrelated to the merits of a case’
 14 need satisfy only the less exacting ‘good cause’ standard.” *Id.* at 1014; *accord Brown v. Google,*
 15 *LLC*, 2022 WL 2289059, at *1 n.1 (N.D. Cal. Apr. 4, 2022) (sealing records filed in connection
 16 with “apex” motion).

17 Good cause to seal exists where the relevant documents “contain trade secrets, contain
 18 confidential research, development or commercial information, or if disclosure of the information
 19 might harm a litigant’s competitive standing.” *Synopsys, Inc. v. Siemens Indus. Software Inc.*,
 20 2021 WL 4427437, at *24 (N.D. Cal. Sept. 27, 2021). “[C]ompetitive harm” results—and a sealing
 21 order is warranted—when public disclosure of a document would “provid[e] competitors insight”
 22 into a party’s non-public “polic[ies]” or “strateg[ies].” *Verinata Health, Inc. v. Ariosa*
 23 *Diagnostics, Inc.*, 2015 WL 1885626, at *1 (N.D. Cal. Apr. 24, 2015). The same is true with
 24 respect to the public disclosure of a party’s “internal systems and operations, including details
 25 related to internal projects and their proprietary functionalities.” *Calhoun v. Google LLC*, 2022
 26 WL 1122843, at *2 (N.D. Cal. Apr. 14, 2022). Information about internal systems and operations
 27 can place a company “at an increased risk of cybersecurity threats, as third parties may seek to use
 28 the information to compromise [the company’s] systems.” *Id.* at *2.

1 Good cause to seal also exists where the relevant documents are already protected from
 2 disclosure in a separate court proceeding and sealing is necessary to “avoid disparate treatment.”
 3 *In re Xyrem (Sodium Oxybate) Antitrust Litig.*, 2023 WL 3874024, at *2 (N.D. Cal. June 6, 2023);
 4 *Netlist Inc. v. Samsung Elec. Co., Ltd.*, 2024 WL 2429346, at *1 (C.D. Cal. May 8, 2024) (finding
 5 “good cause to seal . . . information from sealed court records from another case”).

6 In addition to showing good cause, a party moving to seal documents must explain “why a
 7 less restrictive alternative to sealing is not sufficient” and ensure that the request is “narrowly
 8 tailored to seal only the sealable material.” Civ L.R. 79-5(c).

9 III. UBER’S MATERIALS SHOULD BE KEPT UNDER SEAL

10 The documents at issue should be sealed under the good cause standard. Uber has a
 11 legitimate business interest in sealing the documents, and the limited amount of sealing that Uber
 12 requests is the least restrictive means of protecting that interest. The declarations at issue contain
 13 commercially sensitive, non-public business information concerning Uber’s business practices and
 14 policies. The disclosure of this information potentially poses security risks and a risk of harm to
 15 Uber’s competitive standing.

16 **The Declaration of Dara Khosrowshahi** includes information about Uber’s internal
 17 reporting structure, operations, and responsibilities of senior staff members. These details of
 18 Uber’s organizational structure and operations are sensitive and non-public information which
 19 would provide competitors insights into Uber’s “internal systems and operations,” which could
 20 place the company at risk of harm if disclosed. *Calhoun v. Google LLC*, 2022 WL 1122843, at *2
 21 (N.D. Cal. Apr. 14, 2022). A substantially similar declaration by Mr. Khosrowshahi regarding the
 22 same subject matter was filed under seal in the parallel JCCP proceedings against Uber and sealing
 23 here is necessary to “ avoid disparate treatment” of sealed materials between the two cases. *In re*
 24 *Xyrem (Sodium Oxybate) Antitrust Litig.*, 2023 WL 3874024, at *2; *Netlist Inc.*, 2024 WL
 25 2429346, at *1.

26 **The Declaration of Jill Hazelbaker**, includes information regarding Uber’s internal
 27 reporting structure, and responsibilities for certain topics at the company. Much like Mr.
 28 Khosrowshahi, this declaration provides insight into existing internal systems, the disclosure of

1 which poses competitive and security risks to the company. A substantially similar declaration by
 2 Ms. Hazelbaker regarding the same subject matter was filed under seal in the parallel JCCP
 3 proceedings against Uber and sealing here is necessary to “avoid disparate treatment” of sealed
 4 materials between the two cases. *In re Xyrem (Sodium Oxybate) Antitrust Litig.*, 2023 WL
 5 3874024, at *2; *Netlist Inc.*, 2024 WL 2429346, at *1.

6 **The Declaration of Frank Chang** includes non-public information about the internal
 7 reporting structure of Uber and the division of responsibilities at the company. Similar to the other
 8 current employees, disclosure of this information poses a security and competitive risk for the
 9 company. *Calhoun v. Google LLC*, 2022 WL 1122843, at *2. A substantially similar declaration
 10 by Mr. Chang regarding the same subject matter was filed under seal in the parallel JCCP
 11 proceedings against Uber and sealing here is necessary to “avoid disparate treatment” of sealed
 12 materials between the two cases. *In re Xyrem (Sodium Oxybate) Antitrust Litig.*, 2023 WL
 13 3874024, at *2; *Netlist Inc.*, 2024 WL 2429346, at *1.

14 **The Declaration of Sachin Kansal** includes non-public information about the internal
 15 reporting structure of Uber and the division of responsibilities at the company and identifies details
 16 concerning company initiatives and proprietary safety features that Uber has considered,
 17 developed, or implemented. Disclosure of this information poses both security and competitive
 18 risks for the company. *See Verinata Health*, 2015 WL 1885626, at *1; *Calhoun*, 2022 WL
 19 1122843, at *2. A substantially similar declaration by Mr. Kansal regarding the same subject
 20 matter was filed under seal in the parallel JCCP proceedings against Uber and sealing here is
 21 necessary to “ avoid disparate treatment” of sealed materials between the two cases. *In re Xyrem*
 22 (*Sodium Oxybate*) *Antitrust Litig.*, 2023 WL 3874024, at *2; *Netlist Inc.*, 2024 WL 2429346, at
 23 *1.

24 **The Declaration of Sarfraz Maredia** includes non-public information about the internal
 25 reporting structure of Uber and the division of responsibilities at the company. Similar to the other
 26 current employees, disclosure of this information poses a security and competitive risk for the
 27 company. *Calhoun v. Google LLC*, 2022 WL 1122843, at *2.

28

1 **The Declaration of Travis Kalanick**, likewise contains information regarding Uber’s
 2 reporting structure, operations and division of responsibilities. A substantially similar declaration
 3 by Mr. Kansal regarding the same subject matter was filed under seal in the parallel JCCP
 4 proceedings against Uber and sealing here is necessary to “ avoid disparate treatment” of sealed
 5 materials between the two cases. *In re Xyrem (Sodium Oxybate) Antitrust Litig.*, 2023 WL
 6 3874024, at *2; *Netlist Inc.*, 2024 WL 2429346, at *1.

7 **The Declaration of Rachel Whetstone** includes non-public internal structure and
 8 reporting information about the company during her tenure. Information about Uber’s internal
 9 organization is sensitive and closely held information that places Uber at competitive risk.

10 **The Declaration of Ryan Graves** includes non-public internal structure and reporting
 11 information about the company during his tenure. Information about Uber’s internal organization
 12 is sensitive and closely held information that places Uber at competitive risk.

13 Uber’s proposed sealing is “narrowly tailored” to cover only information for which Uber
 14 has a legitimate interest in maintaining confidentiality. Civ. L.R. 79-5(c)(3). This information
 15 offers insight into Uber’s internal policies, strategies, systems, operations, or projects. Actions
 16 short of sealing would be insufficient to protect Uber’s legitimate interests. Accordingly, there is
 17 good cause to seal the documents identified herein, and there are no less restrictive means of
 18 protecting Uber’s legitimate interest in maintaining confidentiality.

19 **IV. CONCLUSION**

20 For the foregoing reasons, Uber respectfully requests that the Court order that the
 21 documents identified herein be maintained under seal.
